RANKS AS GENERAL.

Dr. Frank Boyd Is Promoted—
Now Surgeon of a Corps,
With Rank of General.He Left Paducah to Become Sur-
geon of the Third Regiment.
Promotion Well Deserved.

Dr. Frank Boyd, of the city, who left here to join the Third regiment as chief surgeon, and was appointed to the position with rank as major, has been promoted, and is now surgeon of the First Army corps, under Gen. Brooks, with rank of general, and pay of brigadier-general, \$5,000 a year.

The news of Dr. Boyd's promotion will be hailed with delight by his many friends here, especially as he obtained it over many applicants, one of whom was Nicholas Sen, of Chicago, who is considered by many to be the greatest surgeon in the world, and whose practice was worth \$50,000 a year.

Dr. Boyd has won the good will and admiration of everybody since he left Paducah, and it is due to his popularity as well as his great ability that he has risen so rapidly.

The promotion of Dr. Boyd is only temporary, but is given out as a straight tip that it will be made permanent. He now has charge of all the chief surgeons under Gen. Brooke. It is understood that Dr. Lillard Sanders, of the city, who left here as hospital pharmacist, has been promoted to Dr. Boyd's place as chief surgeon of the Third regiment.

LIEUTENANT BLUE.

The hero of the week is gallant Lieut. Blue, who invaded the enemy's country all alone, taking his life in his hands, and with his own eyes saw Cervera's fleet in the land-locked bay of Santiago. Lieut. Bozeo wishes to give the gallant American the honor due him, and tonight will be

SPANISH SOLDIERS DESERTING.

Key West, June 18.—A gnatcatcher arrived here yesterday morning with three messengers from the Cuban leaders in Matanzas province to Gen. Kunez at Tampa and the Cuban Junta here. The men are Major Prado, Lieut. Ribalanda and Capt. Cortes. They came from Col. Raja's camp East of Matanzas.

Maj. Prado said there were about 10,000 Spaniards on the coast between Matanzas and Cardenas.

Spanish volunteers and soldiers of late have been deserting in numbers from the forces around Matanzas and joining the Cubans, the Cuban forces in this neighborhood numbering about 2,000, they have arms but lack food and ammunition.

Gen. Mollin, Hane's representative in the province is imitating Weyler's barbarous methods. He has had several skirmishes of late and the Spanish always mutilate the Cuban dead.

The Spaniards are short of food in Cardenas and Matanzas. The cavalry have been dismounted and their horses are being used for food.

DREAD AMERICAN TYRANNY.

They Claim That Gen. Gomez Has
Protested Against American
Intervention in Settlement
of the Cuban Question.

IT'S ONLY THE USUAL SPANISH RUMOR.

Scripps-McRae Service.

Madrid, June 18.—A Havana dispatch says that the newspapers in that city are unanimous in the belief that most serious dissensions have arisen among the insurgent leaders. The dispatch claims that some of the leaders have become neutral while others are anxious to oppose the Americans whose tyranny they dread.

The Guerra Marina prints a letter purporting to be from Gomez to the Cuban Junta in New York, protesting against American intervention in the settlement of the Cuban question.

These papers claim that the Americans will receive no active support from the Cubans except in a few cases, and that there is a probability that the insurgents will join the Spanish forces.

ANOTHER REPORT.

This Says That Many Insurgents
Favor Reconciliation With
Spain.

Scripps-McRae Service.

London, June 18.—The Times has a dispatch from Havana which says that there is a most decided tendency on the part of a large section of the insurgents towards effecting a reconciliation with the Spaniards, owing to their mistrust of American intervention, they being fearful that Cuba will be annexed to the United States after the war is over.

A proclamation has been issued by General Blanco controlling the sale of provisions and fixing a tariff on food stuff.

Many Western Union Operators
Have Joined the Regu-
lar Army.

Scripps-McRae Service.

New York, June 18.—Forty operators and nearly as many electricians employed by the Western Union Telegraph company have joined the regular army and have been formed into what is to be known as the First and Second New York signal corps. It is supposed that they will be sent to Manila.

San Francisco, June 18.—The war has caused a big increase in the coining of silver. The output of the mint for the past fiscal year will reach fifty million dollars.

THE PLUTON HIT.

Scripps-McRae Service.

Madrid, June 18.—Correspondencia de Espana in its account today of the bombardment of Santiago says that many of the shots fired by the American fleet fell into the sea and did no damage. One shot, however, hit the torpedo boat Pluton, but injured it only slightly.

INVASION
POSTPONED.The President Will Wait Until
the Rainy Season Is Over
Before Havana Is
Attacked.The Reconcentration Will Be Sup-
plied Through the Insurgents.
A Base of Supplies Will Be
Opened at Santiago.

Washington, June 18.—After careful consideration, the president and his advisers have decided to postpone the main Cuban invasion and the attack on Havana until after the rainy season. The danger from disease that the army would have to encounter if it should invade Cuba during summer would be very great, and the president has come to the conclusion that it would be a useless waste of human life to send the American troops into Cuba before fall.

It is not the intention, however, to let the fearful suffering of the Cubans continue for any length of time. In the very near future the United States will seize some place on the northern coast of Cuba and form a junction with the army of Gen. Gomez. Through this channel of communication the government will supply the starving Cubans with an abundance of food.

While Major General Miles was in the South he was in constant communication with Gen. Garcia. The insurgent general was informed that the American army would be sent to Santiago and that his troops would be plentifully supplied by the United States with food, clothing and munitions of war.

By forming a junction with Gen. Gomez it will be possible for the United States government to relieve the sufferings of the Cubans in all parts of the island. Gen. Garcia will distribute food in his section of Cuba and Gen. Gomez in his territory.

As soon as Major General Shafter has landed near Santiago de Cuba a vessel will leave the United States with 500,000 pounds of fresh dressed beef to supply the army and the Cubans. Two ships have been engaged by the government for the sole purpose of carrying food to Santiago de Cuba. One of these boats will leave each week with 500,000 pounds of beef.

Washington, June 18.—The president has received information that the Cuban fleet is going to the Canaries and that Spain is making preparations for a strong stand there in view of the threatened invasion of Spain itself by the American fleet forming at Newport News.

The flying squadron assembling at Norfolk is to act as a convoy to transports taking troops to Porto Rico. The war department is in sore straits for transports. It may have to use big Atlantic liners, now cruising, the St. Louis, St. Paul, Harvard and Yale. Each is good for 2,000 men.

OTHER LATE WAR NEWS OF INTEREST.

Scripps-McRae Service.

London, June 18.—Manila advices via Hong Kong dated June 13 asserts that Gen. Aguinaldo, the insurgent leader, on June 12, at a gathering of rebel chiefs, proclaimed the independence of the Philippines.

Besides the three thousand prisoners captured in the last great battle, Aguinaldo has captured a great deal of money, which he has entrusted to Admiral Dewey.

Scripps-McRae Service.

Washington, June 18.—The administration believes that General Angusti cannot hold the Philippines much longer, but it is not believed that the climax will come until after General Merritt arrives at Manila.

THE SITUATION TODAY.

At noon yesterday Rear Admiral Sampson was expecting the invasion army before nightfall, but he was probably doomed to disappointment.

The Spaniards are strengthening fortifications to the east of Santiago, but it is probable the landing will take place to the westward. Rear Admiral Sampson's work of preparation seems complete, but if the army is delayed he will have to do part of it over again.

The blockade of Havana has been greatly weakened by the withdrawal of eighteen warships to convey the invading army for fear of a phantom ship. Havana is known to be receiving food supplies, in all probability by blockade runners.

Gen. Aguinaldo, owing to lack of artillery with which to attack the fortifications of the city, prefers to await the arrival of the American army before entering the city. But it is by no means certain that he will delay.

The people in Manila are all but starved.

Subscriptions to the war loan are exceeding by far the expectations of treasury officials, and it is now believed the entire amount could have been disposed of at a less rate of interest than 3 per cent.

Scripps-McRae Service.

New York, June 18.—The Herald has a Madrid dispatch of today which says that the well authenticated report concerning the Queen Regent's intention to abdicate is only half heartedly denied by the Spanish press.

The Queen Regent on the advice of her ministers has postponed her plan of immediate abdication, but she declared that she will abdicate the throne when the time becomes more opportune.

MAYOR ISSUES ORDERS.

ty will at once take legal proceedings, according to the mayor, to compel the street car company to repair its track on West Broadway. The track was torn up to be changed from the side to the middle of the middle of the street, and the new track has never been covered up, or had not been up to this morning, the ties being bare and down below an embankment of dirt and gravel that seriously interferes with both traffic and drainage. Two or three times the city has served notice on the company, but it never fulfilled its promise.

Several of the council are opposed to giving some of the citizens out on West Broadway anything, however, as the city desires to build sidewalks there, and cannot get the necessary property without going to the trouble of condemning it. Those who have it will neither give it to the city nor sell it, and one or two of the council said last night that they ought to live in mud and water for their obstinacy.

SATURDAY, JUNE 18, 1898.

It looks funny that the papers in the case were not furnished the council.

There are certainly a few members of the council who don't believe in whitewashing.

What is the matter with Councilman Fowler? He's all right, no foolishness about him.

When the city council gets through with their investigation, maybe the grand jury could do some investigating.

The first expedition to Manila is expected to reach there within a week, and then Admiral Dewey will have soldiers enough to occupy Manila and keep order.

The city's official organ has had little to say about the council lately. It has doubtless come to the conclusion that the "business men's council" was not so bad, after all.

Well, well! Not a year in office, a public scandal, a resignation, and a general factional fight between the members. Even the "business men's council" did better than that.

In view of Col. Bryan's horror at the bare idea of annexing anything in the way of a foreign island, it would be real mean to send him to the Philippines to help do the one thing that he is now so earnestly opposing.

A few months ago Joe Leiter's friends took great pains to make known the fact that he was managing the wheat deal all by himself and that his father was not in it; now, however, the "old man" is settling up the bills to preserve the family's good name, and Joe is not in it.

MR. BRYAN when asked for an opinion of the action of those eighteen Democratic Congressmen who voted for the annexation of Hawaii, had nothing at all to say. It is quite possible that the vote in Congress reminded him of the vote cast at the November election in 1896 and he recognized the second time the voice of the people.

THE popular loan is a success and the whole \$200,000,000 will probably be taken in amounts of \$500 or under. In many instances the applications have been for bonds as low as \$20 the smallest amount that can be subscribed for. Whether the full amount be thus subscribed or not, the wisdom of popular loans has been amply demonstrated. The people who are anxious to loan money to the government represent every walk of life: mechanics, bricklayers, railroad men, clerks and others of like vocations are furnishing the money with which the government will prosecute this war. As the war has been called the people's war, it is peculiarly appropriate that the funds should be furnished by the first popular loan and the precedent should be established that the people should be the first ones to be taken into confidence by the government.

HAWAII will be annexed and it may be but a few days before a ship is dispatched to Honolulu to raise the stars and stripes over those islands. The vote of the House of Representatives, 209 to 91, showed the way the people feel, for the Congressmen are in close touch with their constituents and know the popular will. The opponents of annexation call the public sentiment in favor of it the "imperial idea" or the "spirit of conquest," and claim that all the traditions of the Republic are being cast aside and a radical departure from established precedents is being adopted that will cause many future entanglements. Yet one fact remains that public opinion is irresistibly in favor of territorial expansion: the sentiment is increasing every day, and the Senate will not be able to withstand the demands of the people. Whether wise or unwise, founded upon reason or instinctive, the people of this country are emphatically in favor of more territory and of planting the stars and stripes on desirable acquisitions.

THE SUN does not make the assertion that "all Republicans look alike" at the distance that Louisville is from here. But we do desire Republican victory this fall, and we consider the success of the party to outweigh the claims of any one man.

It is claimed that the nomination of Hon. Walter Evans was not altogether fairly accomplished; but political functions in Louisville are not noted for fairness when given by either party, and the last affair may not be just as it ought to have been. But that is not the question. Col. Evans is a good man. He will make a valuable member of congress, as indeed Mr. Todd would have done. The Republicans of Kentucky expect to see him elected. No Republican leader in Louisville or elsewhere in the state has any right to endanger the success of the ticket this fall by any lukewarmness or by dissention or sulking. With a united front all along the line, the Republicans have the opportunity to elect the largest Republican delegation that has ever gone to congress from this state. But it cannot be done by bickerings and quarrelling. Loyal Republicans will stand by the nominee.

From the earliest history of this country there has always been a contention against acquisition of territory and the extension of the boundaries of the republic. When the vast domain known as the Louisiana purchase was ceded us by French, an anguished howl was raised by the dissenters, living to the East. When Texas was annexed, the same weeping and croaking was indulged in and the direst prophecies made. When the cession by Mexico and the establishment of the Rio Grande as the boundary were being consummated the same old arguments were rehearsed and the same old wails, tears and prophecies were brought forth. There has always been a party, or group, which has got in the way of progress and the republic, merely to be crushed under the wheels. They have always apparently feared the country would grow so great, so large, that they could not govern it, that they would lose their political powers. They have acted as if the blessings of civilization and civil liberty should be confined to some little corner of the world in which they lived. The American people will not confine freedom. It is not for one people and yet for another. This principle of civil liberty will never cease its efforts until the world shall be free and the people their own rulers. At this time we are being treated to another howl. It might as well cease for all the good it will do. Cuba shall be free—Porto Rico shall be free—the Philippines shall be free, and every spot over which Old Glory floats shall be free, henceforth and forever.

THE WAR BONDS. The bonds that are now being offered by the government as a popular loan bear interest at 3 per cent. payable quarterly. The denominations of the coupon bonds are \$20, \$100, \$500, \$1,000; of registered bonds, \$20, \$100, \$500, \$1,000, \$5,000 and \$10,000. In terms they are precisely like all other United States bonds outstanding—that is, they are payable in coin.

For a month yet, or until 2 o'clock p. m. July 14, no subscription will be honored that calls for more than \$500. All others will be pigeon-holed. If the subscriptions for \$500 or less exhaust the entire issue of \$200,000,000 the others will stay pigeon-holed. The allotment of what remains will commence with the smallest subscriber—that is, the man who wants \$500 or \$1,000 worth of bonds will have his application honored before that of the man who asks for \$1,200 or \$2,000, and so on. It is therefore practically impossible for the banks and wealthy men who would bid for blocks of \$100,000 or \$1,000,000 to get any of these bonds if the people of modest means take advantage of this month of time.

The bonds will be dated Aug. 1, 1898 and will run 20 years, the Government having the right to pay them after the expiration of ten years.

MUNYON'S KIDNEY CURE

Don't forget the concert at the A. M. E. church tonight.

Mr. Robt. Glass and Miss Eliza Canan who were married in Metropolis yesterday, were received on their return by their friends with many congratulations and wishes for success in life.

SOCIETY NOTES.

Quite merrily has whirled the social wheel the week just passed, for the social calendar has been a full one, each day bringing forth one or more pleasant functions, keeping the people in perpetual motion. It is too good to last, however, and if signs are true events next week will be few.

The Misses Reed in honor of their guest, Miss Janelle, of Cairo, gave a wheeling party Thursday afternoon. The run was to Ramona park where a delightful supper was served. On account of the heavy rain that evening the party returned on the cars.

The members of the Young Ladies' Club will enjoy two meetings of the club next week with Mrs. Chas. Moen and Mrs. Edwin Rivers as hostesses.

Society's younger belles and beaux enjoyed a most delightful dance at Ramona park last evening.

A Dainty Party Hood. Even in the summer, when going any distance to a dance or party, a large hood to throw over one's head is a necessity. When going out on the cars to the suburban parks, it is risky to have the head uncovered, and as these hoods are made large and comfortable there is no danger of the hair being disarranged. A lovely model is of white china silk, lined throughout with the same material. A ruffle of lace forms the cape of the cap; a frill of accordion pleated chiffon encircles the face, while a coquettish bow of white satin ribbon adorns the top of the cap.

PARIS FASHIONS. The newest French estimates are barred with satin and figured with pretty Louis XIV designs in natural colorings.

The latest Parisian disposition of the persistent box pleat which has so generally adorned the front of many fancy bodices, places it this season from shoulder to belt on each side, with a band of lace insertion or rich passementerie laid over it. Turn back reverse finish the immediate fronts, these faced with some handsome contrasting fabric. A dainty chemise shows between, and the fullness is drawn more closely in at the waist, leaving very little, if any, of the former pouch effect.

A PRETTY HOUSE GOWN.

There is charming simplicity shown in the summer styles, which is grateful to the eye; and if there is not much originality, there is certainly variety. One decidedly youthful house gown, of cream colored batiste has the round skirt made with a deep frounce at the foot. The full blouse of the plain material is plaided with insertions of cream lace. The shirred sleeves are of embroidered batiste, with a small puff at the shoulder, finished at the wrist with a ruffle. This gown would look well made up in any soft material and would be especially becoming to a full figure.

MEN, MARRIAGE AND WOMEN.

When a man marries the girl he loves he thinks he has everything he wants, but he soon finds out he has not.

In choosing a husband always leave him to do a fair share of the choosing.

Marriage is a lottery in which many of the prizes are drawn by men that never had it out.

Many a married man is kept from wishing he was single again for fear his wife will find out about it.

Marrying a woman for money is generally a trifle risky, for you always get the woman and not always the money. H. C. BOULETIER.

Speaking of men and marriage, beware of the wife who, as she kisses you good-bye, slips a bit of paper into your pocket, saying: "There's a list of a few things I'd like you to get on your way home. Please don't overlook any of them today. There's a dear." Jenkins has such a wife. He takes the little slip, and says: "Yes, my dear; I'll get them." He gives himself ten minutes to catch the train for home, and this is the list: Six lemons, a dozen oranges, a dozen lemons, a bottle of peppercorns, bunch of celery, bottle of vanilla extract, pound of almonds, pound of moist sugar, yard of white cambric, shilling's worth of champagne leather, box of glycerine jujubes for baby's cough, card of books and eyes, figs, package of pins, boot faces for Johnnie, piece of blue dress braid, and something for baby. He arrives home with two lemons and an orange, and looks unutterable things when Mrs. Jenkins says: "You didn't have time to get the other things? Why, my dear, I could have bought them all in ten minutes."

A college society has been organized at the First Ward Baptist church, with Mrs. Dr. W. H. Nelson president. It is designed to work for the interest of the state university at Louisville.

Thoughts of the eighth of August are beginning to bud and the committee is springing neither time or expense in preparing for a big celebration at Ramona park.

Rev. H. A. Stewart, P. E., of the Paducah District, C. M. E. church, will hold his quarterly conference to-night and tomorrow. He will also occupy the pulpit at the Husband

Argument

Is not necessary to convince a thinking person that money is thrown away when invested in a typewriter that has not passed its experimental period.

Years of hard, thoughtful effort and continual experimenting are necessary before reaching approximate perfection in a writing machine. Is it wisdom, then, for one to contribute to this cost of experiment?

Reputation Established

Years of experience, constantly increasing sales the world over—the natural result of typewriter excellence—is the unquestioned record of

THE SMITH PREMIER TYPEWRITER.

When you buy a Smith Premier you obtain a writing machine that is in advance of all others in points of improvement and durability. Do not pay for the mostly experiments of others. The Smith Premier passed its experimental period years ago. It now stands the leader among writing machines. Descriptive catalogue free.

Bicycle Blow Hards

Can only talk about building a correct and up-to-date bicycle. But the Excelsior Bicycle Works was the first and are the only people in Paducah to-day that ever manufactured a complete, high-grade bicycle in Paducah, the only people that ever put a white chain on a bicycle frame, others have tried but they failed. It is the verdict of the best known riders in Paducah that the Excelsior is the prettiest, speediest and most durable bicycle that exists.

When good riders pay for bicycles they ride the best. The following speedy, fearless and daring riders, will pedal the Excelsior to victory this season:

Emery Hobson, the undisputed junior champion of Paducah.

Eddie Toof, the promising star of 1898.

Owen Tully, the fast pace-maker.

Rich Halsey, Walter Wilkins, Billy Orr and others.

Any old bicycle repair shop can build a bicycle, but why can't they sell them? It's easy to answer if you see them. See the pink rims glisten in the sunlight.

There Are Two Ways

Of getting glasses—one to go to a first-class optician and get what you need; the other, to go to a merchant who keeps spectacles and sells them so cheap, make a "grab in the bag," as it were, get a pair that don't fit you (although it may seem so for the moment), and run the risk of ruining your eyesight entirely—all for a very small difference in expense. If you need the services of a good optician we can serve you well and cheaply. No charge for examination.

POLICE NEWS.

There Was An Interesting Session of the Police Court This Morning.

Henry O'Rourke is in a Bad Predicament—Other News of General Interest

Joe Farris and Henry O'Rourke, who were arrested yesterday for maliciously cutting each other, were arraigned before Judge Sanders this morning, and the evidence was heard and the case left open until Monday.

The evidence showed that the two men were in Ward's saloon, night before last drinking. They had a dispute and agreed to go outside and fight it out. There were several people inside at the time, but none seemed to see O'Rourke with his knife but the proprietor, who himself was not there.

O'Rourke, who is a tough looking customer, said that he was drunk and did not know what he did, and if he used his knife he did not know it. Judge Sanders said that it was a penitentiary offense to split a man's lip under any circumstances, and left the case open. It now looks very much like O'Rourke will go to the penitentiary whether he cut Farris or struck him. Farris is out on bond.

R. P. Paxton was charged with using insulting language towards Officer Underwood and Atkins in the police court this morning. He pleaded guilty and was fined \$3 and costs.

Officer Underwood has not yet given up his position on the night police force. He first resigned to take effect on the 15th, but afterwards changed the date, and will now give up his place on July 1st, to be succeeded by Mr. Jas. Crow.

Pinekey Children and Luther Beit, two young men well known in police circles, were tried for a breach of the peace, and were fined respectively \$1 and costs and \$5 and costs.
